"Small enough to know you...Large enough to serve you"

VISA ACCOUNT UPDATER OPT-OUT REQUEST FORM

I would like to opt-out of the **Visa Account Updater (VAU) Service**. VAU is an account updating service in which your Dannemora Federal Credit Union debit and/or credit card is automatically enrolled. When a new DFCU debit or credit card is issued due to the previous card expiring or being lost/stolen, Visa will automatically send updates with relevant card data (card numbers and expiration dates) to merchants. To receive the updates, the merchant must be participating in VAU and maintain card-on-file account information for the processing of recurring payments, such as a subscription service. This free service is offered to help facilitate uninterrupted processing of your recurring payments. I understand that by opting-out of the service it will become my responsibility to notify merchants who maintain card-on-file information with recurring payments of any updates to my DFCU debit or credit card.
